Hidden Cove

By Elise L. Moore, C.S.B.

We used to live on a little lake called Hidden Cove. There was an almost invisible channel connecting the Cove to the main river. Some who started down the channel turned back because there were so many twists and turns. They gave up before they found Hidden Cove. But when you knew there was a lake there, you didn't give up so easily. It took persistence but we discovered the channel into Hidden Cove. Sometimes spiritual thinking and understanding God can seem like Hidden Cove. But if we are persistent in following spiritual ideas, we will find what seems hidden to others. God isn't hidden. God only seems hidden to selfish or fearful thinking. God is in plain sight. For the spiritually minded, for anyone willing to trust that God is present to heal and save, God's healing power is plain to see. God's love is visible. God's grace and goodness are always present. So in your journey today be assured that God is right there. The twists and turns of daily life can't hide God's healing power and love for you. Stick with the spiritual ideas, those divine intuitions that are coming to you. They are leading you to God.
